

Welcome to AS4242420258

Basic Information

MNTNER: VZSTLESS-MNT

ASN: AS4242420258

IPv6 Ranging: fd50:ffed:6425::_48

Registry Email: vzstless@gmail.com

Principles

- (1) Temporarily this is not an auto peer, if you want to peer with me please use proper way to contact me.
- (2) Fxxk IPv4.
- (3) When peering, please provide your ASN, IPv6 address, IPv6 link-local address, endpoint and wireguard public key. Pay attention that I do NOT ACCEPT any IPv4 related peers.
- (4) Nodes outside China Mainland do not accept peers from China Mainland in order to prevent potential legal issue.

Nodes

Please contact me to get the port number of endpoint as I prefer to choose a random one among prime numbers between 2 and 65535. I don't like the traditional way to set last five digitals of your ASN as my endpoints.
