Welcome to AS4242420258

Basic Information

MNTNER: VZSTLESS-MNT
ASN: AS4242420258
IPv6 Ranging: `fd50:ffed:6425::_48`
Registry Email: `vzstless@gmail.com`

Principles

(1) Temporarily this is not an auto peer, if you want to peer with me please use proper way to contact me.
(2) Fxxk IPv4.
(3) When peering, please provide your ASN, IPv6 address, IPv6 link-local address, endpoint and wireguard public key. Pay attention that I do NOT ACCEPT any IPv4 related peers.
(4) Nodes outside China Mainland do not accept peers from China Mainland in order to prevent potential legal issue.

Nodes

Please contact me to get the port number of endpoint as I prefer to choose a random one among prime numbers between 2 and 65535. I don’t like the traditional way to set last five digitals of your ASN as my endpoints.
